GARTNER® PREDICTS THAT THE WORLDWIDE END-USER SPENDING ON CLOUD APPLICATION SERVICES (SAAS) WILL INCREASE TO $232.3B IN 2024.

MENDIX ISV PROGRAM SERVICES

Free Mendix development, test, and demo licenses	Dedicated developer enablement programs
No upfront investment and a revenue share model so you define your success	Access to the Siemens and Mendix Ecosystem

"Providers are facing demands to redesign SaaS offerings for increased productivity, leveraging cloud-native capabilities, embedded AI and composability—particularly as budgets are increasingly driven and owned by business technologists. This change will ignite a wave of innovation and replacement in the cloud platform and application markets."

Sid Nag, *vice president at Gartner*
